DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on April 14, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. 6652641B2 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Therefore, the rejections of claims 1 ~ 8 in the prior Office Action dated on January 30, 2006 is withdrawn.

Allowable Subject Matter

Claims 1 ~ 8 are allowed.

The following is an examiner's statement of reasons for allowance:

Referring to the statements of Terminal Disclaimer, instant claims 1-8 are allowable subject matters in view of their patenting relationship with claims of U.S. patent US006652641B2.

The closest prior art of the records is Kreher et al (US004430280), Kreher et al teach the combining of light filler such as silica in the form of aqueous dispersion by spraying to the carbon black to produce the granulator (Col. 2, line 10-19). The mixed granulators obtained are uniformly shaped and because of their pellet-like character very rapidly pourable. They can be well metered and excellently worked into or dispersed in rubber mixture (Col. 3, line 3-4). However, Kreher et al (US004430280) do not disclose the coagulation process to obtain the rubber composition.

Another prior art of the records is Takewell et al (US003390006), Takewell et al disclose the method of making carbon black/silica pigment. Takewell et al teach the combined pigment to be hammer milled and then pelleted in the normal manner, producing a dust free product and used in rubber composition. Takewell et al do not teach the combined pigments being prepared with rubber in mixture to be coagulated, then to form the rubber composition.

As of the date of this Notice of Allowability, the Examiner has not located or identified any reference that can be used singularly or in combination with another reference including all

references of the record to render the present invention anticipated or obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
